Training Intake Process

Getting started with training is simple and personalized every step of the way. Here's how it works:

1. Fill Out the Contact Form

Tell us a bit about your dog, your goals, and any challenges you're facing. This helps us get a clear picture before we connect.

2. Introductory Phone Call (Free)

After reviewing your form, we'll schedule a quick call to go over your needs, answer any initial questions, and make sure we're a good fit.

3. **Consultation Call – 30 Minutes | \$50**

This in-depth call allows us to dive deeper into your dog's behaviour, history, and training goals. You'll get clear recommendations, and we'll discuss which program best suits your needs. If you choose to move forward, we'll book your sessions and apply the \$50 toward your program.
